First Jimmy never realized he needed an instructor. When he was a child he had a dream of becoming a scientist. Sometimes children's dreams disappear, but sometimes they become reality. Jimmy's dream of becoming a scientist was not just a dream, it was a goal. He worked hard and eventually he became a scientist. He was a brilliant student and he was a hard worker. He was a person who was always looking for a challenge. He was a person who was always looking for a way to make a difference. He was a person who was always looking for a way to make the world a better place. He was a person who was always looking for a way to make a difference in the world. He was a person who was always looking for a way to make the world a better place. He was a person who was always looking for a way to make a difference in the world.
